

Pulita 4000 SBC

THINK  GREEN

A LOW V.O.C. CLEANER FOR SOLVENT BASED FLEXO AND GRAVURE INKS AND COATINGS

DESCRIPTION:

PULITA 4000 SBC is a water miscible, low V.O.C. cleaner designed for cleaning solvent based inks and coatings. It minimizes the environmental impact that is associated with solvent based washes by meeting U.S. and Canadian air quality requirements.

PULITA 4000 SBC will thoroughly clean solvent based inks, coatings, and flexo plates without leaving an oily residue surface.

PULITA 4000 SBC will remove solvent based ink and coating film from chamber doctor blade, anilox roll systems, and deep clean gravure cells assuring uniform application to the finished product.

DIRECTIONS:

Apply PULITA 4000 SBC in a normal wash-up manner and wipe clean until clean-up is complete.

SPECIFICATIONS:

FLASH POINT >79°F

Cleaning Strength Strong

VOC's 4.0lbs./gal

Personal Protection.....When using chemical cleaners, always wear safety goggles and gloves.
